IMAGERY INFORMATION REPORT**FORCE REALIGNMENT IN SOVIET 5TH ARMY,
FAR EAST MILITARY DISTRICT, USSR (S)**

(S/WNINTEL) During the period [redacted] a force realignment was observed within the Soviet 5th Army in the Far East Military District, USSR. This realignment (Figure 1) resulted in the following: the forward deployment of a major combat maneuver unit of the Smolyaninovo Division to an installation 10 nautical miles (nm) from the Sino-Soviet border; a consolidation of artillery, rocket, and chemical units with the combat maneuver units of the Sergeyevka Division; and the consolidation of all elements of a second-generation (mobilization) division at Shkotovo Army Barracks AL-1.

25X1

(S/WNINTEL) The artillery regiment and the multiple-rocket launcher battalion subordinate to the Sergeyevka Division had been housed at Chernyatino Army Barracks AL-1/TA-1. These units had left garrison by [redacted] and were probably redeployed to Barano-Orenburgskoye Army Barracks AL-1. This approximately 25-nm move consolidated the artillery and rocket force units of the Sergeyevka Division with its combat maneuver elements in the Barano-Orenburgskoye area. The chemical defense battalion housed at Chernyatino AL-1/TA-1 had also left garrison by [redacted] and was probably redeployed to Lipovtsy Army Barracks Southwest AL-1.

(S/WNINTEL) The active BTR-60PB-equipped motorized rifle regiment and the chemical defense battalion subordinate to the Smolyaninovo Division housed at Shkotovo AL-1 had left garrison by [redacted] and was probably redeployed to Chernyatino AL-1/TA-1 by [redacted] (Figure 2). This resulted in a forward positioning of these units to within 10 nm of the Sino-Soviet border from a rear support area approximately 50 nm from the border.

(S/WNINTEL) Between [redacted] two BTR-40-equipped, second-generation motorized rifle regiments and an engineer battalion housed at Smolyaninovo Army Barracks AL-1/TA-3 began to redeploy 5 nm northwest to Shkotovo AL-1. Most of the equipment for these units had been transferred by [redacted]. This relocation consolidated all elements of the second-generation motorized rifle division at Shkotovo AL-1.

(S/WNINTEL) The forward deployment of the motorized rifle regiment of the active Smolyaninovo Division placed a frontline unit in the Tung-Ning-Pokrovka Gap, one of the two major avenues of advance into the Ussuriysk/Vladivostok area. The consolidation of the Sergeyevka Division improved the defenses of the second approach route through the Sui-Fen-Ho-Pogranichny area and simplified the command and control for the division

by placing all of the units of the division within a 20-nm area. The relocation of all elements of the second-generation division at Shkotovo AL-1 should simplify the coordination of activity in any future activation of the division.
